

CURRICULUM VITAE

SYED AINUL HUSSAIN

Ph.D.; D.Sc (Wildlife Sciences)

Founder Director,
Centre for Biodiversity and Sustainable Sciences
Plot No. 40, Doon Officers Enclave, Wildlife Road, Dehradun
Uttarakhand, India -248002
Email: Ainul.Hussain@gmail.com; director@cbss-india.org; Mobile Tel: +91-94120 75660

The Centre for Biodiversity and Sustainable Sciences (CBSS) is a Section 8, Start-up company, registered with the Ministry of Corporate Affairs since 2021. The CBSS has been aiming to secure India's environment by promoting science-based conservation planning, creating an environmentally aware society, contributing to India's sustainable development, and empowering human resources to manage and conserve India's environment and biodiversity sustainably. With an experience of over 35 years, as faculty and later Head, Department of Landscape Level Conservation Planning at the Wildlife Institute of India (WII), an Autonomous Institute of the Ministry of Environment, Forest and Climate Change, Government of India, I have been managing projects on several aspects of wildlife conservation and management which includes terrestrial, aquatic ecology, and wetland management that includes coastal and marine habitat, and protected area management; Environment Impact Assessment and Social Impact Assessment of development projects; assessment of ecosystem services; community engagement in biodiversity conservation; and wildlife conservation policy and natural resource governance issues.

My core competence is science based biodiversity conservation planning at the large landscapes and riverscapes levels, ecological restoration of critical wildlife species and habitats including coastal and marine habitats, engage communities in conservation, impact assessment of developmental projects and working for policy and advocacy for biodiversity conservation.

EDUCATIONAL BACKGROUND

- **Doctor of Science (D.Sc.) in Wildlife Science (2018)**, Aligarh Muslim University, Aligarh, India. Thesis: Approach to science-based management of natural ecosystems for wildlife conservation and maintenance of ecosystem services: A synthesis.
- **Doctor of Philosophy (Ph.D.) in Wildlife Science (1993)**, Aligarh Muslim University, Aligarh, India. Thesis: Aspects of the ecology of smooth-coated otter (*Lutrogale perspicillata*) in National Chambal Sanctuary, India.
- **Master of Philosophy (M. Phil.) in Wildlife Science (1991)**, Aligarh Muslim University, Aligarh, India. Dissertation: Ecology of gharial (*Gavialis gangeticus*) in National Chambal Sanctuary, India.
- **Master of Science (M.Sc.) in Zoology (1985)**, Aligarh Muslim University, Aligarh, India
- **Bachelor of Science (B.Sc.) Zoology (Hons), Botany & Chemistry with distinction (1980)**, Utkal University, Bhubaneswar, India

PROFESSIONAL EXPERIENCE

- I have over 35 years of work experience in the field of biodiversity conservation and ecological studies, after obtaining a PhD. Degree. During this period, I have worked on the ecology of several endangered species such as conservation of tiger and other large mammals, river otter, crocodiles, river dolphin, freshwater turtles, and waterbirds. I have worked extensively on aquatic ecology across the length and breadth of the country, covering nine of ten biogeographic zones, including the Himalayas, the Gangetic plains, the Semi-arid, the Deccan Plateau, the Desert, the Western Ghats, the Central highlands, and the North-East. My experience ranges from ecology and restoration of several threatened species and habitats at large landscape levels, human-wildlife conflicts in and around protected areas, environmental and social impacts of mining dams, water abstraction, and other development planning, stakeholder engagement, and ecosystem services of the varied natural ecosystems. The output of these projects has been instrumental in species and habitat restoration and landscape-level conservation planning.
- During my tenure at the Wildlife Institute of India, I secured funds for a large number of projects. These projects were funded by various national ministries and departments as well as International agencies. The Ministry of Jal Shakti sponsored projects on river restoration covering the entire country merit special mention in this regard. I led these projects as Principal Investigator before my superannuation and later as Project Manager and co-investigator of these projects. I led a multi-disciplinary team of more than 200 project personnel who worked for the ecological restoration of the rivers through integration of multi-faceted dimensions of biodiversity conservation and ecological restoration.
- I was instrumental in establishing the Ganga Aqualife Conservation Monitoring Centre/National Centre for River Research at the Wildlife Institute of India, for conducting ecological assessment of the rivers and other freshwater ecosystems. This Centre, as a key knowledge partner of the Ministry of Jal Shakti and the Ministry of Environment, Forest and Climate Change, provides information for policy planning and decision-making. The Centre has a state-of-the-art laboratory for ecotoxicological analysis, conservation biology, spatial analysis, and socio-ecological database management.
- Since 1994, I have been providing teaching inputs on subjects related to wildlife biology, protected area management, wetland ecology, conservation and management of freshwater and coastal habitats, and conservation planning at the landscape level to the postgraduate students, protected area managers, and forest officers of India and other Asian countries. I have developed and implemented courses related to Biodiversity conservation, Wetlands and Coastal habitat management, and Protected Area management. Realizing the lack of expertise for freshwater conservation and management, I envisioned a pioneering academic course of MSc in Freshwater Ecology and Conservation. This course is being run at the Wildlife Institute of India with financial support from the National Mission for Clean Ganga, Ministry of Jal Shakti.
- I have coordinated and implemented several international programmes of the Government of India, including the Indian Scientific Expedition to Antarctica. At the International Forum, I have been the lead author for several multi-national assessments, such as IPBES, HIMAP, FAO and UNEP.
- I have provided technical support to the Government of India and other agencies as a member of various committees, for reviewing and critically commenting upon various research and development proposals for approval/financial support/publication.

MEMBERSHIP OF SELECT PROFESSIONAL SOCIETIES

- Member, IUCN Commission on Ecosystem Management
- Member, IUCN World Commission on Protected Areas
- IUCN SSC, Red List Authority OSG
- IUCN WCPA Network Member: Science of Management and Biodiversity
- IUCN WCPA Network Member: Tourism and Protected Areas
- IUCN WCPA Network Member: Climate Change
- IUCN CEM Network Member: Nature-Based Solutions

PROJECTS EXECUTED

#	Title	Agency	Period	Amount (INR)
1	Supporting Identification of FWC Targets covering Freshwater Restoration and Conservation efforts in India	IUCN - India	2026	16,00,000
2	Mapping Potential Other Effective Area-Based Conservation Measures (OECMs) in the Indian Himalayan Region	IUCN - India	2025	6,35,000
5	Planning and management for aquatic species conservation and maintenance of ecosystem services in the Ganga River Basin for a clean Ganga	National Mission for Clean Ganga, Ministry of Jal Shakti, Government of India	2019-26	113,99,28,587
6	Jalaj – Connecting people and people to realize Arth Ganga	National Mission for Clean Ganga, Ministry of Jal Shakti, Government of India	2022-26	18,88,70,000
7	Assessment of the Ecological Status of select Indian Rivers for Conservation Planning	National River Conservation Directorate, Ministry of Jal Shakti, Government of India	2021-26	24,56,25,094
8	Connecting the dots: finding dispersal corridors for large mammals in Kaziranga – Karbi Anglong landscape	National Tiger Conservation Authority, Government of India	2019-22	1,83,40,000
9	Promoting community participation in conservation and conflict resolution in the fringe villages of Kaziranga Tiger Reserve through Eco development.	National Tiger Conservation Authority, Government of India	2019-22	80,30,000
10	Conservation of Manipur's Brown Antlered Deer or Sangai: An Integrated Approach	National CAMPA Ministry of Environment, Forest and Climate Change, GOI	2016-21	19,95,00,000
11	Dissemination and evaluation of technologies through networking of various institutes and organization of mountain ecosystem	Department of Science and Technology, Government of India	2017-20	75,55,384
12	Landscape sustainability challenges in proposed Similipal - Satkosia corridor region due to collective mining regime: mining-wildlife habitat linkages and impacts	Ministry of Environment, Forest and Climate Change, Government of India	2019-21	1,25,30,000

#	Title	Agency	Period	Amount (INR)
13	Ecological monitoring of Chambal river basin with special reference to water requirement of key aquatic species	Wildlife Institute of India, Grant-in-aid	2017-20	57,78,000
14	Biodiversity Conservation and Ganga Rejuvenation	National Mission for Clean Ganga, Ministry of Jal Shakti, Government of India	2016-19	24,83,00,000
15	Management of invasive species in wet grasslands of Kaziranga Tiger Reserve, Assam	National Tiger Conservation Authority, Government of India	2018-21	80,30,000
16	Biodiversity Assessment of Gautam Buddha Wildlife Sanctuary in Hazaribagh and Gaya District	Dedicated Freight Corridor	2017-19	12,31,650
17	The distribution pattern, habitat use and movement of breeding water birds with respect to Black necked cranes and Bar-headed geese using telemetry in Changthang Cold Desert Sanctuary and Gharana Wetland Reserve	Ministry of Environment, Forest and Climate Change, Government of India	2009-19	46,50,000
18	Assessing potential of community participation in biodiversity conservation of Kalesar and proposed Kund Community Reserve	Haryana Forest Department	2015-17	15,00,000
19	Landscape sustainability challenges in Western Singhbhum region due to collective mining regime: Mining wildlife habitat linkages and impacts	Ministry of Environment Forest and Climate Change, Government of India	2015-17	50,00,000
20	Evaluation of ecosystem services including the hydrologic and carbon ecosystem services of Munnar Landscape	United Nations Development Programme	2014-15	44,56,760
21	Genetic Assessment of Sambar Rusa Unicolor population in North East India	Department of Science and Technology-Science and Engineering Research Board	2014-17	32,70,000
22	Management planning of Kusheshwarasthan and Baraila Bird Sanctuaries, Bihar	Bihar Forest Department	2014-16	24,00,000
23	Pattern of biomass production by wetlands and it's use by wild ungulates in Kaziranga Landscape	Department of Science and Technology-Science and Engineering Research Board	2013-16	48,82,000
24	Promoting livelihood security and community participation in forest conservation in fringes of Kedarnath Wildlife Sanctuary	Uttarakhand State Council for Science and Technology	2013-15	5,45,000
25	Economics of living in the wild: cost-benefit analysis for the forest corridor linking the Rajaji and the Corbett National Parks	South Asian Network for Development and Environmental Economics, Nepal	2012-15	13,72,500
26	Valuation of rangelands: livestock production function of the rangelands of the Hindu-Kush Himalayas	International Centre for Integrated Mountain Development, Nepal	2011-12	7,36,000
27	Assessment of impact of sand mining in Uttarakhand	Uttarakhand Forest Department	2011-12	8,00,000
28	Integrated Development of wildlife habitat-Sangai	Govt. of Manipur	2010-13	7,60,000

#	Title	Agency	Period	Amount (INR)
29	Assessment of policies and institutional arrangement in the Indian Hindu Kush Himalayas	International Centre for Integrated Mountain Development, Nepal	2010-11	9,50,857.5
30	Management planning of Okhla Bird Sanctuary	Uttar Pradesh Forest Department	2009-11	17,35,350
31	An integrated approach to reduce the vulnerability of local community to climate change impacts and environmental hazards in western Himalayas	Wildlife Institute of India, Grant-in-aid	2006-11	49,14,000
32	Conservation ecology of Sangai and its wetland habitat	Wildlife Institute of India, Grant-in-aid	2005-11	65,00,000
33	Valuation of Bhitarknika mangrove ecosystem for ecological security and sustainable resource use	Indira Gandhi Institute of Development Research	2001-03	15,00,000
34	Ecology of otters in Corbett Tiger Reserve: Impact of Kalagarh reservoir on the habitat use pattern	Wildlife Institute of India, Grant-in-aid	2000-04	7,82,400

PH.D. THESIS SUPERVISION

1. Sah, R. (2025). Ecotoxicological and GIS Spatial Risk Assessment of Estrogenic Endocrine Disrupting Compounds (e-EDCs) from Middle Ganga. Saurashtra University, Rajkot
2. Tripathi, R.N. (2025). Integrating Computer Vision and Unmanned Aerial System for Ecological Monitoring of Freshwater Habitat. Graphic Era University, Dehradun.

3. Zeeshan Ali, Sk. Assessment of altered land use pattern on the Middle Ganga River hydrodynamics using geospatial modelling. Saurashtra University, Rajkot
4. Das, G.C. Spatio-temporal distribution, abundance and habitat use patterns of Gangetic river dolphin (*Platanista gangetica*) in the lower Ganga river, India with respect to its conservation. Saurashtra University, Rajkot.
5. Usmani, A.A. Study on waterbird assemblages of the middle Ganga river. Saurashtra University, Rajkot.
6. Kumari, P. Avian community structure with relation to landscape heterogeneity in Lower Shivalik Landscape, Haryana. Saurashtra University, Rajkot.
7. Sharma, M. (2024). Plant community structure and biomass productivity of seasonally flooded wetlands of Brahmaputra floodplains, Assam. Saurashtra University, Rajkot.
8. Sharma, S.P. (2023). Genetic diversity, gene-flow and mating system in sympatric crocodylian species in National Chambal Sanctuary, India. Saurashtra University, Rajkot.
9. Devi, A. (2023). Food habits of sympatric large herbivores in Kaziranga National Park, Assam. Saurashtra University, Rajkot.
10. Mahar, N. (2022). Status, habitat use and factors affecting breeding waterbirds of Changthang Cold Desert Sanctuary, Ladakh (India). Saurashtra University, Rajkot.
11. Sinha, A. (2022). Distribution pattern, abundance and habitat use by hog deer (*Axis porcinus*) in Manas National Park, Assam. Saurashtra University, Rajkot
12. Manral, U. (2018). A study on the resource dependence, human-wildlife conflict and community participation in forest management in Alaknanda basin, Uttarakhand. Saurashtra University, Rajkot.
13. Pariva, D. (2015). Assessment of provisioning services and the recreational value of Nanda Devi Biosphere Reserve Ph.D. Thesis. Saurashtra University, Rajkot
14. Gupta, S.K. (2015). Assessment of genetic variation in sambar deer (*Rusa unicolor*). Ph.D. Thesis Saurashtra University, Rajkot
15. Leima, S. T. (2014). A study on the people – protected area interface at Keibul Lamjao National Park, Manipur. Ph.D. Thesis. Saurashtra University, Rajkot
16. Selvan, M. K. (2013). Ecology of sympatric large carnivores in Pakke Tiger Reserve, Arunachal Pradesh. Ph.D. Thesis. Saurashtra University, Rajkot
17. Tuboi, C. (2013). Assessment of water quality and biomass productivity of the tropical floating meadows of Keibul Lamjao National Park, Manipur, Ph.D. Thesis. Saurashtra University, Rajkot
18. Angom, S. (2012). Demographic status and genetic variation of Sangai in Keibul Lamjao National Park, Manipur. Ph.D. Thesis. Saurashtra University, Rajkot
19. Fozia, H. (2010). A study on waterfowl population and human use of Hokersar and Hygam wetlands of Kashmir valley for conservation planning. Ph.D. Thesis. Saurashtra University, Rajkot.
20. Nawab, A. (2008). Ecology of otters in Corbett Tiger Reserve. Ph.D. Thesis. FRI University, Dehra Dun.

M.SC. DISSERTATION SUPERVISION

1. Basak, S. (2019). Resource use and distribution of Smooth-coated otter (*Lutrogale Perspicillata*) in the Sub-Himalayan foothill rivers of Uttarakhand. M.Sc. Dissertation. Saurashtra University, Rajkot.
2. Sharma, R. (2017). Diversity and abundance of birds in disturbed and undisturbed wetlands of Manipur River Basin. M.Sc. Dissertation. Saurashtra University, Rajkot.
3. Anees, C.R. (2015). Assessing riverine vulnerability: A multiscale landscape approach using Smooth-coated otter as a key species in Kabini River Basin.
4. Nadendla, L.P. (2015). Resource selection, abundance and conservation of Smooth coated otters in and around Coringa Wildlife Sanctuary.
5. Devi, A. (2014). Food habits of Swamp deer and Hog deer in Kaziranga National Park, Assam, India. M.Sc. Dissertation. GGSIP University, New Delhi.
6. Shamra, M. (2014). Plant species composition and aboveground biomass production of wet grasslands of Kaziranga National Park, Assam, India. M.Sc. Dissertation. GGSIP University, New Delhi.
7. Jayaram, S. (2013). Density, distribution and factors influencing sea stars in selected islands of Lakshadweep, India. M.Sc. Dissertation. Saurashtra University, Rajkot.
8. Sebastian, S. (2013). An assessment of recreational value of Periyar Tiger Reserve and the distribution of tourism income among stakeholders. M.Sc. Dissertation. Saurashtra University, Rajkot.
9. Jabaraj, F.S.D. (2013). Resource selection by large herbivores with special reference to blackbuck (*Antelope cervicapra*) in Point Calimere Wildlife Sanctuary, Tamil Nadu.
10. Rana, M. (2012). Agro-biodiversity and food security in context to climate change: A case study of Nanda Devi Biosphere Reserve, Uttarakhand. M.Sc. Dissertation for the award of degree in Environmental Science, School of Environment & Natural Resources, Doon University.
11. Phukan, A. (2011). An assessment of socioeconomic status of local people, their resource dependency and attitude towards wetland conservation: a case study of Panidihing Wildlife Sanctuary, Assam. M.Sc. dissertation. Environment management. Deemed University, Forest Research Institute, Dehra Dun. 107 pp.
12. Niazi, S.G. (2011). Gender based natural resource management in and around Nanda Devi Biosphere Reserve. M.Sc. dissertation. Forest Management, Deemed University, Forest Research Institute, Dehra Dun. 69 pp.
13. Sabic, K. (2011). Human–Wildlife conflicts in the Nanda Devi Biosphere Reserve. Uttarakhand, India. Dissertation. Bachelor of Arts with honours. University of Michigan, USA. 29 pp.
14. Singh, H. (2009). Urban attitudes towards climate change in Dehra Dun, Dissertation, Post Masters Diploma in Natural Resource Management, FRI University, Dehra Dun. 85 pp.
15. Mainak, M. (2009) A review of scenario and possibilities of clean development mechanism in India. Dissertation, Post Masters Diploma in Natural Resource Management, FRI University, Dehra Dun.
16. Passeport, F. (2009) Appropriation of natural resources, space and discourses of the Bhotiya community of Mana village (buffer zone of Nanda Devi Biosphere Reserve), Uttarakhand, India. M.Sc. Dissertation on Environmental Anthropology, Muséum National d'Histoire Naturelle (Paris, France), 44 pp.

23. Dadda, T. (2005). The Relative sensitivity of mammalian carnivores to disturbance. M.Sc. Dissertation, Wildlife Institute of India, Dehra Dun & Saurashtra University, Rajkot
24. Konthoujam, B. (2005). Human-wildlife conflicts around the Corbett Tiger Reserve. M.Sc. Dissertation, FRI University.
25. Sah, T. (2005). Perception of local people towards services provided by forest ecosystem: A case study from Bhabar-Tarai. M.Sc. Dissertation, FRI University.
26. Sushant (2003). Dead wood, Wildlife and PA Management: A study on the extent of use of dead wood by wild animals at Periyar Tiger Reserve. M.Sc. Dissertation, Wildlife Institute of India, Dehra Dun & Saurashtra University, Rajkot.
27. Anoop, K.R. (2002). Factors affecting distribution and feeding habits of Smooth-coated otter in Periyar Tiger Reserve. WII & Saurashtra University, Rajkot
28. Latt T.W. (2002). Seasonal change in social structure, behaviour and habitat use by Sarus crane in Keoladeo National Park. WII & Saurashtra University, Rajkot

INTERNATIONAL AWARDS, GRANTS & FELLOWSHIP RECEIVED

- Certificate of appreciation for contribution to ecological economics, from United States Society for Ecological Economics, Pace University, New York.
- Small Grant from Commonwealth Foundation, U.K to participate in Mountain Summit, Canada.
- IUFRO-SPDEC Programme, Austria for Training on Sustainable Management of Forests.
- Travel Grant from United States Society for Ecological Economics to travel to Pace University
- Small Grant from Banff Mountain Centre, Canada for attending Mountain summit.
- Travel Grant from FAO to attend XII Forestry Congress, Buenos Aires, Argentina.
- Travel Grant from Carnivore and Pangolin Conservation Group, Vietnam.
- Travel Grant from Conservation International, Cambodia to participate in the Training programme on Building capacity to conserve the otters of South East Asia.
- Travel Grant from Alka Wildlife to travel to Cottbus, Germany for otters and EIA workshop.
- IUCN SSC OSG Grants to train participants in Nepal, Thailand, Taiwan as principal trainer for monitoring otters and their wetland habitats.
- Travel Grant from Otter Survival Funds, UK. For providing training in Indonesia and Bangladesh.

- Travel Grant from University of Pavia to attend XI Otter Congress, Italy.
- Travel Grant from Instituto Araguaia, Brazil to attend XII Otter Congress, Rido de Janeiro.
- Small grants from IUCN SSC Otter Specialist Group for attending IMC 2013, Belfast.
- SERB-DST Animal Science, GOI for study on biomass production and its use in Kaziranga.
- South Asian Network for Development and Environmental Economics (SANDEE).
- International Centre for Integrated Mountain Development (ICIMOD).
- Junior and Senior Research Fellow of WII, Ministry of Environment and Forests, Govt. of India.
